SUMMER SESSIONS 1937

For several years the summer quarter at East Carolina Teachers College has been divided into two equal terms. This arrangement is made for the convenience of a large number of students who find it inconvenient, if not impossible, to attend the full quarter, but who find it necessary or profitable to use a portion of the summer for further study.

Each class meets five times a week in order to complete a three hour course during each term. Instruction periods are sixty minutes long, exclusive of the change period between classes. Students will be permitted to carry a maximum of three full courses each term for a total credit of nine quarter hours per term (six semester hours).

Any course in the catalog will be offered either term provided there is sufficient demand for it.

Practice teaching in the elementary grades will be offered during the first term only.

All departments of the college will be in operation during the summer sessions. The same procedures are followed and the same regulations apply during the summer sessions as during the regular school year.

Teachers certificates may be renewed in a six weeks term; credits may be earned toward a higher certificate, and toward graduation.

No credit will be given for a course in which a student misses more than six class recitations. Students may register not later than one week after the opening of either summer session.

The two-year curricula will be discontinued at the close of the summer quarter 1937 at East Carolina Teachers College.

Published four times each year, March, May, August, and December.
Entered as second class matter March 16, 1936, at Greenville, N. C.,
under the Act of Congress of August 24, 1912.

Students desiring transcripts checked or college credits evaluated before making up their summer term schedules should submit transcripts and request the check at least one month before the session opens.

Credits earned during the summer sessions are sent to the State Department of Certification at Raleigh promptly at the close of the summer session, provided record cards furnished for this purpose have been filled out carefully by the student and then left with the Registrar of the college.

RECREATION AND ENTERTAINMENT

The summer school at East Carolina Teachers College offers abundant opportunities for wholesome recreation to its students. Four tennis courts, a municipal swimming pool adjacent to the campus, a baseball field, a good volleyball court, the weekly motion picture show in the college auditorium, and the regular social hour each evening in the Robert H. Wright Building, are some of the attractions available.

A series of attractive entertainments secured from a national Lyceum Bureau will be offering during each term of the summer school, in addition to the usual picnics, barbecue lunches, water-melon cuttings, etc., which are provided for summer school students.

FEEES AND EXPENSES

College fees during the summer sessions are the same as for other quarters, viz.:

	1st. Term	2nd. Term	Total
Dormitory student	\$46.25	\$46.25	\$92.50
Day student	16.25	16.25	32.50
Late registration fee	1.00	1.00	2.00
Out-of-state fee	5.00	5.00	10.00

The tuition fee of \$10.00 per term is included in the charges given above.

Rooms in the men's dormitory will be available during the summer sessions.

Students who, for any reason, withdraw from the college before the end of any quarter will have a proportionate part of the amount paid for board refunded. Under no circumstances will other fees be refunded. Refund will be from the date of official withdrawal from college.

ENTRANCE REQUIREMENTS

All students who expect to enter college here for the first time must submit their high school credits before registering. Graduates of accredited high schools are admitted without examination, if their credentials include a minimum of 15 units of work.

FORMER STUDENTS AND COLLEGE DEGREES

Former students of East Carolina Teachers College who desire to continue their work toward a degree find little difficulty in adjusting the work done on an earlier curriculum to the requirements of present curricula. Credits earned elsewhere in standard colleges will be accepted, when properly certified provided such credits fit in with the curriculum selected by the student in East Carolina Teachers College.

STANDING AMONG OTHER COLLEGES

East Carolina Teachers College is a member of the Southern Association of Colleges and Secondary Schools, The American Association of Teachers Colleges, and of the North Carolina College Conference.

CERTIFICATES AND DEGREES

The kind of certificate held determines the ranking of the teacher and the salary and position of the teacher, as a rule. Teachers are typically ranked according to the length of their professional training. There will soon be no room in the profession for the untrained and the poorly trained teacher.

The demand is growing for elementary school teachers who hold degrees on four years of college work. Superintendents and other employing officials in the public schools are demanding the A certificate, and it is becoming more and more difficult for those holding the B certificate to secure a teaching position.

The primary and the grammar grade B certificate may be secured at the present time: (1) by completing a two-year normal curriculum, with graduation or (2) by securing the equivalent of three years of standard college work which must include certain specific subjects that are required by the department of certification.

A satisfactory record of proficiency in spelling and penmanship must be met before a certificate to teach in the elementary school will be issued.

PRINCIPAL'S CERTIFICATE

There is a growing demand for teachers with a principal's certificate, hence special attention is called to the offering of courses in the department of Administration and Supervision. These courses are provided for the benefit of those students in the summer sessions who desire to qualify for the supervisor's certificate or for the elementary principal's certificate.

PRIMARY AND GRAMMAR GRADE A CERTIFICATE

After 1938 the State Department of Certification will require the satisfactory completion of the requirements for a degree from a standard college and the specific certificate requirements as qualifications for the A certificate. This means that the department will not issue the A certificate merely on the earning of a minimum of 120 semester hours, including specific subject requirements for the certificate after 1938, but will require the completion of college graduation requirements.

HOUSING FACILITIES

The college has abundant space in its dormitories and dining halls for all who may attend the summer sessions, and private homes are available for those who desire to live off the campus.

Day students may secure board in the college dining hall at the rate of \$47.50 per quarter, payable in advance. Part time boarding is not permitted in the college dining hall.

Women students who do not live in their own homes while attending the college are required to live in the college dormitories unless they have permission from the Registrar to live in a private home. Application for this permission must be made on a form provided by the college and it must be signed by a parent or guardian of minors.
